

COMMERCIAL LIMITED HARDWARE WARRANTY

Standard Enterprise Coverage Terms — Document REF: WRTY-STD-COMM-2026

1. Scope of Coverage

Pacific Data Technologies warrants that all commercial server components, docking systems, and network interface cards sold under commercial purchase orders will be free from defects in materials and workmanship under standard operational use for a period of thirty-six (36) months from the date of initial commercial delivery.

2. Service Authorization and Claim Validation

To initiate a valid warranty claim, corporate procurement administrators must follow prescribed warranty validation procedures:

- Submit the original tax invoice and hardware serial number to our customer service desk.
- Allow standard remote diagnostic logs to be reviewed by a certified service engineer.
- Formal Return Authorization must be generated by our warranty system prior to physical return shipment.

3. Exclusions

This warranty does not extend to defects resulting from improper electrical surge, physical drops, liquid spillage, unauthorized firmware modifications, or unauthorized disassembly outside accredited service centers. Policy instructions strictly require corporate accounts to maintain unbroken factory seal stickers.
